Project Peer Review Questionnaire

UE20CS312 – Data Analytics

Team Name: DH
- Dev Rajeshbhai Hathi PES1UG21CS813
- Harsha R Patil PES1UG21CS812

Team that you reviewed: Nirya
- Neeraj Gopalakrishnan PES1UG21CS824
- Hritik Sharma PES1UG21CS814
- Priya Gawli PES1UG21CS829

Rate the clarity of the problem statement [1-5]:
- **5 – Clearly Defined**

Goals of the work and summary of the work done (2-3 lines):
1. Review Literatures   - Done
2. Exploratory Data Analysis   - Done
3. Total Model Prediction   - Done
   - AR
   - ARIMA
4. SARIMAX for individual variable prediction   - Done
   - Healthcare Spent
   - Crop Yield
   - Electricity Used
5. Final model using Multivariate TS analysis using VAR(Vector Auto-Regression)   - Yet To Do

Has the team completed EDA to gain insights to the data?:
- **Yes**

Has the team worked on preprocessing the data?:
- **Yes**

Has the team designed and implemented one or more models?:
- **Yes**

Rate the progress of the team in relation to their stated goals for the project [1-5]:
- **4**

What are your recommendations to the team for their final review?
- **I would recommend the team to answer the question of how at the end they impact the GDP rather than just predict by showing different other factors affecting GDP.**
